

The City of Meridian is excited to be part of the golf community at Lakeview Golf Club. It is our goal to offer a high quality golf experience to our patrons. We look forward to improving the golf course in ways that will improve its appearance and playability. Listed below are three projects that will begin taking place during Summer 2022. The course will remain open for the duration of these upgrades.

Project updates can be found at: lakeview-golf.com.

Pressurized Irrigation Pump

A new pressurized irrigation pump will be installed to increase water capacity, minimizing daytime watering.

Irrigation System

A new irrigation system will be installed throughout the entire golf course to improve coverage.

Cart Paths

New concrete cart path segments will be installed near tees and greens throughout the course.
